#### Education of Wards.

25. During the year no new Ward joined the Mayo College. The ten Wards who continued their studies at the College at the close of the year were Raja Sardul Singh of Bhinai, Thakur Bijey Singh of Masuda, Thakur Udai Singh of Kerote, Thakur Jagmal Singh of Sarana, and his two brothers, Thakur Nathu Singh of Kalahera-Bogla, Thakur Ranjit Singh of Goella, Raja Raj Singh of Rajgarh, and Thakur Udai Singh of Basundni.

26. The Thakur of Deolia-Khurd continued to work with the Kamdar in his estate during the year.

27. The health of all the wards was good and the reports in respect to their progress at the College were satisfactory.

## SECTION III.

## PROTECTION.

(1) POLICE (YEAR ENDING THE 31ST DECEMBER 1909).

28. Mr. R. E. Coupland held charge of the Office of Superintendent of Police, Ajmer-Merwara, from January 1st to April 14th and again from November 6th to the close of the year. From April 15th to November 5th, during his absence on leave, Mr. F. W. Galloway of the United Provinces Police officiated in that post, remaining on in Ajmer-Merwara as Assistant Superintendent of Police from the date of his relief by Mr. Coupland to the end of the year.

29. The total volume of cognizable crime reported in 1909 was 3,137 against 2,602 in 1908. These figures include reports to both the Police and Magistrates and actually, the increase falls entirely among magisterial cases which rose from 107, to 749. This increase was chiefly among offences classified as "Public Nuisances" (serial No. 41) and is accounted for by the increased vigilance in connection with sanitation which was rendered necessary by the outbreak of plague during the latter part of the year. The figures of cognizable crime for the triennial period closing December 31st, 1909, are as follows :—

Year.	Police.	Magisterial.
1907 . . . . .	2,365	195
1908 . . . . .	2,495	107
1909 . . . . .	2,388	749

Excluding public nuisances and false cases, the total number of cases returned for 1909 stands at 1,475 against 1,358 for 1908. That there should have been no decrease in crime as a whole, inspite of easier prices, is attributed to the fact that the evacuation of houses on account of plague offered opportunities to burglars of which they were not slow to avail themselves.

30. The incidence of crime as a whole per 10,000 of population was 65·8 against 54·6 for 1908. If sanitary offences are excluded, however, the figure falls to 31·8 for 1909 as compared with 29·6 for the previous year.

31. There was a decrease of 135 cases of non-cognizable crime during the year, the total number of such cases standing at 2,678 against 2,813 for 1908. The figures show no marked fluctuation under any single head and it seems probable that the decrease as a whole is due to the plague epidemic having left litigants little leisure or money for the prosecution of minor grievances.

32. The following comparative table shows the details of cognizable and non-cognizable crime for the year under report and the year which preceded it :—

Particulars.	1908.					1909.				
	COGNIZABLE.			Non-cognizable.	TOTAL CRIME.	COGNIZABLE.			Non-cognizable.	TOTAL CRIME.

## POLICE COGNIZABLE CASES.—ALL CLASSES.

33. The total number of cases of cognizable crime reported to the Police during the year under report was 2,388 against 2,495 in 1908. This represents an incidence of 50 cases per 10,000 of population for 1909 against 52·3 for the previous year. These are high figures and, though reporting is said to be somewhat defective in rural areas owing partly to the paucity of chaukidars and partly to the fact that, in the *Istimrari* area, headmen have only just been appointed, there is little reason to suspect that serious offences escape attention at the hands of the police.

34. No investigation was made in 458 of the cases reported in 1909. The number of cases which remained uninvestigated in the previous year was 388. The Superintendent of Police explains the proportionate decrease in investigations as due to an extension of the system of what is known as "optional investigation." Even now, however, the percentage of cases investigated to reported is far higher than in other Provinces and though local circumstances are probably partly responsible for this state of affairs care should be taken that cases of a petty nature are not investigated without special reasons unless the complainants expressly desire it.

35. The total number of police cases decided during the year was 1,537 as compared with 1,638 in the previous year. The percentage of cases investigated by the Police which ended in conviction was 74 as compared with 73 in 1908. The percentage of persons convicted in police cases to persons arrested by the police was 91·7 as compared with 93 in 1908. These are high percentages and reflect credit on the police.

*Class I.—Offences against the State, Public Tranquillity, Safety and Justice.*

36. There were eight cases of this class as compared with 6 in 1908. Three of these cases came under the head "Offences relating to coins and stamps" two of which ended in conviction, the 3rd remaining undetected. In the two cases which were successfully worked out a wandering *jaqir* was concerned. In no case was the origin of the counterfeit ascertained.

Two cases of rioting were reported of which number, one ended in conviction and the other was pending trial at the close of the year. Neither of those cases was of any importance.

*Class II.—Serious offences against the person.*

37. The number of cases of this class was the same as for 1908, namely, 75. The Police were successful in obtaining convictions in 33 of those cases as against 27 in 1908.

38. Five cases of murder were reported, one of which was subsequently found to be false. Two of the remainder were cases in which women threw themselves into wells with their children in their arms, owing to domestic quarrels, and all were drowned. Of the other two cases one ended in conviction and the other was pending at the close of the year. Some good work was done by the Police in connection with those cases but none of them presented any extraordinary features.

39. Three cases of culpable homicide were reported all of which were brought before the Courts where two ended in conviction and the 3rd in acquittal.

*Class III.—Serious offences against person or property or against property only.*

40. Under this class 431 cases were reported to the Police against 457 in 1908. The decrease was chiefly under the head "Lurking, house trespass or house breaking."

41. There were six cases of dakaiti against three cases in 1908. One of these was an attack by an armed gang on a Mahajan who was living in a hut outside a village which had been evacuated on account of plague. The case was well worked out by the Police and resulted in the arrest of six persons four of whom were convicted and one acquitted. The 6th man was made a witness for the Crown and was released. The remaining cases were road dakaitis which all occurred in a police circle adjoining the Kishengarh State and were believed to be the work of a gang of Sansiahs. Though those cases are shown as undetected in the returns, a portion

of the property stolen was recovered from the possession of that gang and a successful prosecution was instituted under section 412, Indian Penal Code. Certain members of the gang were also handed over to the Kishengarh authorities for trial in connection with dakaitis which had occurred about the same time in that State and the gang has been effectually broken up.

42. The number of cases of robbery decreased from 11 to 7 true cases. Only one of those cases was convicted. Though the remainder are shown in the returns as undetected the local police were not as unsuccessful as the statements would appear to imply. Good work was done in another case in which the culprits were pursued and arrested in Kishengarh territory and that case has, since the commencement of 1910, been made over to the International Court of Vakils for trial. In addition to this some Sansiahs, suspected to be the perpetrators of three other robberies, were arrested and though those offences could not be brought home to them they were ultimately dealt with under section 110, Criminal Procedure Code.

43. Excluding cases which proved to be false, 413 cases of lurking, house trespass or house breaking were dealt with in 1909 as against 431 in the previous year. The number of convictions fell from 81 to 60 which is not a satisfactory record. The Superintendent of Police attributes the falling off in detection to the fact that many cases occurred in houses which had been evacuated owing to plague and as a result much delay occurred before the initial report was laid which very seriously handicapped the Police.

#### *Class IV.—Minor offences against the person.*

44. Excluding two cases which were ultimately expunged as false only one case is returned under this class against two in 1908. That case was pending trial at the close of the year.

#### *Class V.—Minor offences against property.*

45. Under this class 702 cases were reported to the Police as compared with 732 in 1908. The decrease falls almost entirely under "Ordinary theft."

46. Excluding false cases, the number of thefts of cattle reported was 70 against 67 in 1908. Eleven of those cases remained uninvestigated and of the remainder, 12 were sent up for trial of which number 10 ended in conviction and two in acquittal. In 1907, of 59 cases investigated 9 ended in conviction and 1 was acquitted. These figures do not show very brilliant results but as pointed out by the Superintendent of Police the number of successful prosecutions under section 411, Indian Penal Code, in connection with cattle thefts increased from 8 to 16 and there has clearly been some improvement under this head. The village cattle registers are reported to be in an unsatisfactory condition and the fact that many headmen are illiterate and that there is no obligation on the part of a purchaser to have his cattle registered make the strict enforcement of the rules a matter of considerable difficulty.

#### *Class VI.—Other offences not specified above.*

47. There were 1,169 cases falling under this class reported to the Police as compared with 1,223 in 1908. The decrease falls entirely under the head of "Public Nuisance" and may be attributed to the fact that towards the close of the year, owing to the appointment of a special plague preventive staff, reports of such offences were laid direct to Magistrates and not to the Police.

48. The number of cases of vagrancy and bad livelihood reported during 1909 was 33 as compared with 8 in the previous year. All but 6 of those prosecutions fell under section 109, Criminal Procedure Code, and represent cases instituted against suspicious vagrants who were believed to be lurking in Ajmer-Merwara for the purposes of committing crime. Three of those cases were not sent up for trial but the prosecution proved successful in all but three of the cases which came before the Courts. This has had a most salutary effect.

#### DIRECT COGNIZABLE CRIME.

##### *(a) Cases.*

49. During the year under report the total number of Magistrates' true cases was 749 as compared with 107 in 1908. The greater portion of this increase was under

"Public Nuisances" the figures under that serial rising from 1 to 520. An explanation of this increase has already been furnished. Convictions numbered 539 or 72 per cent. The percentage of conviction in 1908 was approximately 16 and, if sanitary offences are excluded, was 17 in the year under report.

(b) *Persons.*

50. The number of persons concerned in direct cases was 1030 of which number 599 or 58 per cent. were convicted. Excluding persons arrested for offences falling under the head "Public Nuisance" this percentage stands at 19 against 12 in 1908.

NON-COGNIZABLE CRIME.

(a) *Cases.*

51. The total number of cases under this head amounted to 3,339, this figure including 61 cases pending from the previous year. Of these, 1,465 ended in conviction, representing a percentage of 43·9.

(b) *Persons.*

In connection with non-cognizable cases 3,942 persons appeared before the Courts, this number including 164 persons pending from the previous year. Of these, 1,649 persons were convicted.

*Property.*

52. The total value of the property alleged to have been stolen in Police cognizable cases was Rs. 56,070 or Rs. 7,500 more than in 1908. The value of property recovered in those cases amounted to Rs. 15,469, representing a percentage of 28·12. The value of property recovered in 1908 amounted to Rs. 8,706.

Property was stolen in 726 cases in 1909, as compared with 1,036 in the previous year and was recovered in 377 as against 402.

STRENGTH OF THE FORCE.

53. The sanctioned strength of the Police Force was raised in the year under report from 829 to 953. This increase consisted of 1 Assistant Superintendent, 16 Sub-Inspectors, 1 Sergeant and 125 Constables but against this must be set off a decrease of 19 Head Constables. These changes are accounted for by the introduction of the remainder of the reorganization scheme.

In spite of the increase in strength the actual cost fell from Rs. 1,58,301 to Rs. 1,47,125 of which Rs. 1,21,779 were debited to Imperial revenues and Rs. 25,346 to Municipal and other bodies. The decrease in cost is due in part to the large number of vacancies which remained unfilled for the greater portion of the year and in part to the fact that the figures for 1908 included cost of the clerical and special staff and famine allowances which do not appear in the figures for the year under report.

HEALTH.

54. The health of the Force as a whole was not as good as in 1908. Deaths rose from 18 to 28 and the total number of admissions into the hospitals from 59·35 to 69·94. The daily average number of men absent from duty on account of sickness was 23 as compared with 12 in 1908.

REWARDS AND PUNISHMENTS.

55. The number of officers and men rewarded rose from 102 in 1908 to 136 in 1909. The amount earned by them as rewards, from all sources, was Rs. 1,189 as compared with Rs. 866 in the previous year. The total number of punishments, on the other hand, decreased from 30 in 1908 to 25 in 1909. This is a satisfactory record and the general work and conduct of the force during the year has been good.

## CASUALTIES.

56. The following casualties occurred during the year :—

(1) Pension or gratuity . . . . .	17
(2) Resignation without pension or gratuity . . . . .	54
(3) Dismissal . . . . .	11
(4) Discharge otherwise than above . . . . .	46
(5) Desertion . . . . .	4
(6) Death . . . . .	28
	<hr/>
	160

The number of resignations continues to be high and though owing to the increase in strength the number of enlistments rose from 113 to 226 the Superintendent of Police reports that owing to the increase in pay of the Native Army and competition of the Railway Workshops at Ajmer he finds considerable difficulty in inducing suitable candidates to take service in the Police in spite of the improved rates of pay. The number of men discharged within their probationary period as unsuitable increased from 21 to 46 but the proportion of such casualties to the total number of enlistments is little higher than in 1908. Such increase as there has been may be attributed to the fact that in the endeavour to fill up the large number of posts newly created during the year a certain number of candidates of a somewhat lower standard than would have been accepted in an ordinary year were taken into the force.

## IDENTIFICATION BY MEANS OF FINGER IMPRESSIONS.

57. The number of finger impression slips sent to the Rajputana Bureau for search was 244 as compared with 390 in 1908. The percentage which resulted in the identity of previously convicted offenders being established rose from 7 to 10. Owing to the geographical position of Ajmer-Merwara an unusually large number of slips are forwarded to the Bureau for search and the percentage of successful search must necessarily be low.

## PROCLAIMED OFFENDERS.

58. There were 50 names on the register of absconded offenders at the commencement of the year. No less than 15 of these persons were arrested and two other names were struck off owing to lack of evidence. Fourteen fresh names were added bringing the balance on the register at the close of the year to 47. Of this number 28 are persons falling under Class A, i.e., whose name, caste, residence and antecedents have been fully verified and the remaining 19 fall under Class B and are persons regarding whom it has been impossible to verify those details. The number of arrests made during the year was large and is creditable to the Force.

## SURVEILLANCE OF PERSONS WHOSE HISTORY SHEETS HAVE BEEN PREPARED.

59. The number of persons whose history sheets were recorded in the village crime note book at the end of 1908 was 380 and the number of persons whose history sheets were opened during the year was 227, making a total of 607. The history sheets of 177 persons were discontinued as they were found to have returned to honest livelihood and 430 history sheets were still being kept up at the close of 1909. The present whereabouts of no less than 16 per cent. of those persons is unknown which is not a satisfactory state of affairs but local conditions are such that once a man whose history sheet has been prepared leaves Ajmer-Merwara it becomes difficult to trace him or bring him back under surveillance. Direct communication in such cases has now been arranged for with all the States marching with Ajmer-Merwara except Mewar and Jaipur and it is hoped that this will result in more effective surveillance than has hitherto been possible.

## CO-OPERATION WITH THE POLICE OF NATIVE STATES.

60. The conferences referred to in the review for the year 1908 have resulted in the Kishengarh, Marwar and Shahpura Durbars accepting with slight reservations the proposals put forward for more effective co-operation between the border police.

## REFORMS.

61. The whole scheme of reorganization was given effect to during the year except as regards the increase in the number of Sub-Inspectors. As stated in the review for 1908 it will take some years for the full number of Sub-Inspectors to be provided.

## GENERAL REMARKS.

62. The question of providing suitable Police lines at head-quarters is still under consideration. Family quarters for officers were added to several Police stations during the year and further progress will be made in this direction as funds become available.

63. The work of the force has been good and in several important cases excellent service was rendered by certain Police officers. The outbreak of plague threw a certain amount of extra work on the Force which was cheerfully undertaken and satisfactorily carried out.

L. M. KAYE,

*Superintendent General of Police,*

*Ajmer-Merwara and Rail-  
ways in Rajputana.*

- (4) District Magistrate, Abu.

(3) CIVIL JUSTICE (YEAR ENDING THE 31ST DECEMBER 1909).

77. The number of Courts during the year under report was 27.

78. The temporary Court of the Additional Commissioner which was established with effect from the 23rd October 1909 to clear off arrears in the Commissioner's Court continued up to the 9th April 1910.

79. The total number of suits instituted (including miscellaneous cases) was 7,330, of these 4,565 were instituted in the Court of Small Causes.

80. The total value of the suits instituted was Rs. 4,27,551 against Rs. 6,28,107 in 1908. Suits of all kinds the value of which was less than Rs. 50 numbered 4,689.

81. The total number of suits of all kinds (including miscellaneous cases) for disposal was 9,028. This includes the pending list at the close of the year 1908 (1,698).

The number of suits disposed of without contest was 4,998, by arbitration 87 and with contest 1,034.

82. The pending file at the close of the year was 1,175 as compared with 1,698 in the preceding year, and of these 593 suits had been pending for more than three months. The average duration of contested Civil suits was 78·85 and that of uncontested suits, 34·71.

83. On the appellate side there were 365 appeals from decrees and orders for disposal. One hundred and thirty-five appeals were disposed of by the Additional Commissioner whose Court sat for about 4 months only.

84. The pending file at the close of the year was 173 appeals. The average duration of appeals was 105·4 against 182·7 days in the preceding year.

85. The number of applications for execution of decrees was 16,940 against 15,195 in 1908. The number pending at the end of the year was 2,802. In 9 cases only were the Judgment debtors imprisoned.

86. During the year under report the Commissioner inspected the Courts of the :—

- (1) Honorary Munsiff, Kharwa.
- (2) Deputy Magistrate and Sub-Judge, 1st Class, Beawar.
- (3) Honorary Munsiff, Bandanwara.
- (4) Honorary Munsiff, Bhinai.

(4) REGISTRATION (YEAR WHICH ENDED ON THE 31<sup>ST</sup> DECEMBER 1909).

87. The total number of all classes of documents presented for registration during the year under report was 3,605 as against 3,611 in the previous year. The slight decrease of 36 is due to the prevalence of plague in Ajmer-Merwara during the second half of the year under report.

88. Out of the total number of documents presented for registration, 2,294 documents or 63·71 per cent. of the whole as against 62·26 per cent. in the preceding year, were registered by the Sub-Registrar of Ajmer.

89. The area of agricultural land transferred by sale during the year was 4,653 bighas as compared with 4,755 in the year 1908 showing a decrease of 102 bighas: similarly the area of agricultural land transferred by mortgage shows a decrease of 51 bighas i.e., from 5,841 bighas in the preceding year to 5,790 bighas in the year under report.

90. The total value of land transferred by sale and mortgage amounted to Rs. 2,93,774 or Rs. 34,386 less than in the preceding year. The decrease was due to the prevalence of plague.

91. The receipts from registration amounted to Rs. 6,909 as against Rs. 7,014 in the year 1908. The total expenditure incurred was Rs. 2,077 as against Rs. 2,243 in the preceding year. Taking into consideration the moiety fees allowed to the Registrar and various Sub-Registrars, the working of the Registration Department shows a net surplus of Rs. 3,183 which is satisfactory. The system of recording thumb impressions worked well throughout the year.

(5) MUNICIPALITIES (YEAR ENDING THE 31<sup>ST</sup> MARCH 1910).

Ajmer  
Municipality.

92. The constitution of the Ajmer Municipal Committee remained unchanged with the exception that Mr. C. W. Waddington was appointed to be Chairman, *vice* the District Magistrate in March and in the suburban ward, Mr. Fateh Chand Mehta, Barrister-at-law, resigned his Membership from about the middle of December 1909.

93. During the year under report, the Committee held 30 meetings, of which 7 were special and 23 ordinary. The average attendance at each meeting was 8·78 and 26·01 respectively.

94. The total income of the year was Rs. 2,55,312 as against Rs. 2,59,282 in 1908-1909. The expenditure amounted to Rs. 2,83,864 as against Rs. 3,15,860 in the previous year and the closing balance was Rs. 21,493. If refunds are excluded, which amounted to Rs. 40,874 in 1908-1909 and Rs. 37,046 in 1909-1910, the figures for the two years compare as follows:—

	1908-1909.	1909-1910.	Difference.
Income . . .	2,18,408	2,18,266	—142
Expenditure . .	2,74,986	2,46,818	—28,168

95. The decrease in expenditure chiefly occurs under the Head "Water-Works" and is due to the fact that no experiments were made in connection with the New Water Supply Scheme during the year under report.

96. The gross and net receipts from octroi in the two years are shown below:—

	Gross.	Net.
1908-1909 . . . . .	1,81,580	1,40,706
1909-1910 . . . . .	1,58,899	1,21,853
Difference . . . . .	—22,681	—18,853

97. The net decrease of Rs. 18,853 is attributed chiefly to the outbreak of plague at Ajmer by which the city was practically deserted for several months in the year and trade was dislocated.

98. There was an increase of Rs. 9,181 in receipts under the head "Sales Miscellaneous" due to extra receipts on account of water supplied to the Railway and to private consumers.

99. The increase of Rs. 5,557 under the Head "Miscellaneous receipts" is on account of credits for materials supplied to and work done by the Municipal Engineer in connection with supply of water to private individuals.

100. The total disbursements during the year under report amounted to Rs. 2,83,864 as against Rs. 3,15,860 in the previous year. The variations chiefly occurred under the following heads :—

	Rs.
Refunds . . . . .	—3,828
Police . . . . .	—1,111
Water-supply and city survey . . . . .	—50,088
Conservancy . . . . .	—20,190
Public gardens . . . . .	—1,138
Roads . . . . .	+4,015
Works done for private individuals (other than those done by the Municipal Engineer) . . . . .	—2,545
Miscellaneous . . . . .	+32,807
Advances . . . . .	+3,472
Deposits . . . . .	+6,166

101. The decrease in refunds corresponds with the decrease in octroi receipts as compared with 1908-1909. The decrease under the Head "Water Works" has already been explained.

102. The decrease of Rs. 20,190 under the head "Conservancy" is due to curtailment of large items of expenditure for the renewal of conservancy rolling stock and purchase of conservancy cattle.

103. The increase of Rs. 4,015 in "Roads" is due to the purchase of a Steam Road Roller.

104. The decrease of Rs. 2,545 under the head "Works done for private individuals" is due to the fact that less private work of a miscellaneous nature other than work connected with water supply was undertaken by the Municipality during the year.

105. The increase of Rs. 32,807 under the head "Miscellaneous" was mainly on account of plague expenditure.

106. A sum of Rs. 5,885 was paid during the year in the discharge of Government loans.

107. The balance of the loan still due from the Municipality amounts to Rs. 1,72,939 at the end of the year.

108. The incidence of taxation fell from Rs. 1-14-6 to Rs. 1-10-4.

109. The management of the Ajmer Water Works was in the hands of the Municipal Engineer up to February 1910 when Mr. S. O. Heinemann having resigned the appointment, it was taken over by the Public Works Department.

110. The first rise in the water level of the Foyasagar occurred after the rainfall on 22nd April 1909. The Lake filled and overflowed the weirs on the 10th September 1909 and continued to do so until the 12th September 1909. The rains ceased on the 24th September and the Lake was then full.

111. The total depth of the Lake between the sill of the sluice and the low level weir was about 24 feet. The level of water above sill of sluice before rain on the 28th June 1909 was 16.44 feet. The highest level of water above sill of sluice on 10th September 1909 was 24.17 feet. Total rainfall between 13th June 1909 to 24th September 1909 was 26.34 inches.

112. The water level in the reservoir on 1st April 1909 was 20.19 feet and it reached the lowest level, viz., 16.44 feet on 28th June 1909. The fall from 1st April 1909 to 28th June was 3.75 against 4.01 feet from 1st April to 18th June 1908 in the previous year.

113. During the year, the core-wall of the dam was raised one foot to protect the bank from the action of the waves and the damage done to feeders was repaired.

114. The weir of the Bisla Tank was opened and the water allowed to run out as the effect of the water in this lake was condemned on sanitary grounds.

115. The question of Octroi taxation on Railway materials imported into Ajmer is under consideration. The Committee of Railway, Municipal and Local Civil Officers appointed to discuss the question decided that such articles were liable to be taxed, but to avoid the inconvenience of collecting the tax a proposal was

made that a fixed percentage of the Local gross earnings of the Railway at the Ajmer Railway Station should be charged.

116. As regards the New Water Supply Scheme, the Committee are consulting the Railway authorities with a view to finally deciding upon the best means of meeting a possible shortage of water.

117. The number of recorded births fell from 1,934 to 1,206 and the number of deaths rose from 4,138 to 6,609. These variations are due to the severe epidemic of plague which ravaged the city, also to malaria. The birth and death rate per mille of population was 16.33 and 89.56 against 26.17 and 56.04 respectively in the preceding year.

118. The total number of deaths reported from plague was 2,376. The number of deaths among children under 5 years of age was 1,254 (18.97 per cent. of the total mortality) against 1802 in the 1908-1909. No cholera or smallpox prevailed during the year.

119. The total number of vaccinations performed in the Ajmer town and suburbs was 1,949 against 2,761 in the previous year. The decrease is due to the prevalence of plague and malaria. The number of primary vaccinations was 1,869 and of re-vaccinations 80 against 2,582 and 179 respectively, last year.

120. The present conservancy arrangements stand in need of reform. The Committee are considering the following matters :—

- (a) Institution of Incinerators to destroy sweepings and excreta in the most economical manner.
- (b) Supply of New Conservancy carts of a durable and convenient pattern.
- (c) Disposal of insanitary dwellings which have sprung up in the South-Eastern Suburbs.

121. A loan of Rs. 60,000 from Imperial Funds repayable in six years was sanctioned by the Government of India to the Municipality during the current year. The loan was necessary in view of the serious strain upon the Municipal finances caused by the heavy plague expenditure and the loss in Octroi receipts consequent on the desertion of the city during the epidemic and the almost complete stagnation of business.

122. There was no change in the Municipal boundaries during the year.

123. As a result of the last triennial election new members took their seats on the Committee on the 2nd January 1909. During the year under report the Committee held 17 Meetings of which 9 were special and 8 ordinary as compared with 7 special and 8 ordinary in 1908-1909.

124. The total income of the year amounted to Rs. 85,185 as against Rs. 73,761 in 1908-1909 and the expenditure to Rs. 89,213 as against Rs. 87,126. The closing balance amounted to Rs. 17,421 exclusive of Rs. 10,000 invested in Government paper.

125. The increase of Rs. 11,424 in the income occurred chiefly under the head "Octroi" which realised a gross amount of Rs. 81,445 as against Rs. 70,672 in the preceding year. This increase is attributed mainly to the very good outturn of the Cotton Crop this year, which more than counterbalanced the decrease resulting from smaller imports of certain other articles in consequence of the prevalence of plague in the city.

126. The net receipts from Octroi after deducting refunds of Rs. 27,144 amounted to Rs. 54,301 against Rs. 43,685 in the preceding year.

127. The incidence of Octroi taxation on a population of 21,928 was Rs. 2-7-6 per head during the year under report as against Rs. 1-15-9 in the year 1908-1909.

128. Compared with the previous year the expenditure shows an increase of Rs. 2,087 which is chiefly due to the unforeseen expenditure incurred in connection with the Plague arrangements under the head "Conservancy."

129. The construction of the Municipal Town Hall was commenced in August 1909 and the Foundation Stone was laid by the Hon'ble Mr. E. G. Colvin, C.S.I., Chief Commissioner of Ajmer-Merwara, on the 14th February 1910. The Town Hall has been named the "Colvin Town Hall". It is hoped that the building will be completed about the end of the year 1910-1911. A sum of Rs. 1,000 was granted to Mr. Heinemann, Municipal Engineer, Ajmer, for the work done by him in connection with Water Works Scheme.

130. No investigation in connection with the Scheme was made during the year under report.

131. A sum of Rs. 5,424 was spent in taking measures against plague which prevailed in the city during the latter half of the year.

132. The numbers of births and deaths registered during the year were 841 and 2,184 as against 911 and 1,125 respectively during the year 1908-1909. The excess of deaths over births is due chiefly to Plague.

133. There has been no change in the constitution of the Committee during the year under report except the appointment of Munib Lachmi Narain in place of <sup>Kekri</sup> Municipality. Munib Ram Gopal.

134. The Committee held one ordinary and five Special Meetings with satisfactory attendance.

135. The total income and expenditure during the year amounted to Rs. 10,207 and Rs. 8,977 as against Rs. 7,310 and Rs. 9,564 respectively in the year 1908-1909. The closing balance on the 31st March 1910 amounted to Rs. 3,955 inclusive of Rs. 2,000 invested in Government Securities. The increase of Rs. 2,897 in income over the figures of last year is principally visible under the head of Octroi, which is the chief source of revenue of the Municipality and shows an increase of Rs. 2,411. This increase is chiefly due to the larger import of grain, sugar, gur, etc., for consumption in the marriages to be held during the year (1910-1911). The decrease of Rs. 587 in expenditure was effected mainly under the head of Garden and Arboriculture and General Miscellaneous. Proposals for improving the financial position of the Kekri Municipality are under consideration.

136. The incidence of Octroi taxation was Rs. 1-2-6 per head of the population during the year under report as against Rs. 0-12-11 in 1908-1909.

137. The number of births and deaths recorded during the year was 176 and 541 as against 247 and 279 respectively during the year 1908-1909. The decrease in the number of births as compared with the last year is explained by the fact that a large number of people left Kekri during the prevalence of plague and a number of births consequently went unregistered. The increase in mortality is also due to the outbreak of plague.

## (1) LAND AND WATER REVENUE.

156. The year under report which includes the accounts for the Rabi harvest 1316 Fasli and the Kharif of 1317 Fasli was from an Agricultural point of view more propitious than even the previous year. The rainfall was above the normal, the average of the year being 28.13 inches (see the detailed analysis in the appended Table 31). The outturn of the crops was generally good, the only damage being to some of the Kharif crops from excessive rain. No suspension of revenue was, however, necessary and the only remission necessary was a sum of Rs. 88-13 in Merwara.

Character of the season.

157. The total demand of land and water revenue for the year including arrears of previous years amounted to Rs. 7,11,981. Out of this Rs. 4,79,718 were realized as against Rs. 4,63,711 in the year 1908-1909 as shown below:—

## Country spirits.

169. The year under review is the second year of the Contract Supply System. The rates at which country spirits are supplied by the Contractor are as below :—

	Mhowa.		Gur.	
	25° U. P.	50° U. P.	25° U. P.	50° U. P.
Rate per gallon.	0-13-6	0-8-0	0-15-0	0-9-6

170. The receipts under the head country spirits amounted to Rs. 2,33,276 as compared with Rs. 2,05,936 in the year 1908-1909. The increase of Rs. 27,340 is chiefly due to increased consumption of liquor.

171. The total sales of country liquor were 48,914·8 proof gallons as against 43,845·5 gallons in 1908-1909. The increase in consumption was mainly due to the good season and partly to marriages among the low caste people and the Mers and Merats of Merwara. The stillhead duty on spirits issued for consumption in Urban and rural areas was the same as in the preceding year.

172. The number of country liquor shops in the District remained the same as in the previous year *viz.* : 128.

173. The question of restricting the issue of temporary licenses for the sale of spirits at fairs and festivals was kept in view, but no change in the present practice appeared necessary.

The license fees for the wholesale and retail vend of foreign spirits and foreign fermented liquor amounted to Rs. 2,025 against Rs. 2,794 in the preceding year. The decrease is due to the fact that the figures for 1908-1909 include arrears of the preceding year.

176. The receipts under Opium amounted to Rs. 26,897 against Rs. 26,286 Opium. in 1908-1909.

177. A quantity weighing 64 maunds 39 seers 1 tola and 8 mashas was imported for consumption in Ajmer Mewara, the import duty realized being Rs. 10,396. Twenty chests of opium were exported to Bombay: these paid a duty of Rs. 12,500. The export of opium to the Panjab and North-West Frontier Province has been stopped.

178. The total number of licenses issued during the year for the wholesale vend of opium was 18 as against 21 in 1908-1909. The number of shops for the retail vend was the same as in the preceding year *viz.*, 8 in the municipal and 34 in the rural areas.

179. No licenses were issued for the cultivation of poppy and there was no income from duty on locally produced opium.

180. The contraband opium received and sent to the Opium Examiner, Ghazipur, amounted to 13 seers 3 chataks 2 tolas and 3 mashas.

181. The receipts from hemp drugs amounted to Rs. 14,237 against Hemp Drugs. Rs. 12,670 in the preceding year, showing an increase of Rs. 1,567 said to be due to competition.

There were no prosecutions of any Chandu smoker or of any person dealing in cocaine. The number of chandu dens was 11 as against 12 in the preceding year.

184. It is satisfactory to note that the revenue from Excise shows steady increase under the new contract supply system. This is due, no doubt, to the improved administration resulting from the re-organization of the establishments. General remarks.

185. Mr. Gibb, Excise Distillery Expert, inspected the Distillery during the month of April 1910.

### (3) STAMPS.

186. The gross income from stamps amounted to Rs. 1,42,416 against Rs. 1,55,768 in the year 1908-1909 as detailed below:—

	<hr/>	<hr/>
TOTAL . . . . .	1,55,768	1,42,416

187. The decrease in the revenue is due to the outbreak of plague in the districts during the year and the consequent closing of Courts from 1st October 1909 to 30th November 1909.

The expenditure fell from Rs. 53,909 in 1908-1909 to Rs. 40,408 a decrease of Rs. 13,501 which occurred chiefly under the head "Public Works Charges" and was due to the fact that the unusually heavy rainfall in 1908-1909 had necessitated extensive repairs to damaged communications and extra expenditure in that year.

202. The Veterinary Dispensary and Shoeing Forge at Ajmer are working satisfactorily and show improvement. They were inspected by Major Trydell, Superintendent, Civil Veterinary Department, Sindh, Baluchistan and Rajputana, and received a favourable report.

The expenditure rose from Rs. 10,939 to Rs. 12,668 in consequence of winter uniforms being supplied to Chaukidars during the year. The cash balance at the close of the year stood at Rs. 13,475.

213. The total expenditure on public instruction rose from Rs. 1,15,748 to Rs. 1,45,253, of which Imperial revenues provided 51,157 Local Cesses Rs. 7,920, Municipal Funds Rs. 13,884, fees Rs. 27,359 and other sources Rs. 44,933.

214. The total cost of the Arts College was Rs. 21,898. The expenditure on secondary schools amounted to Rs. 90,695 and on primary schools to Rs. 16,480. 215. Mr. E. F. Harris, B.A., continued to be the Principal of the Government College throughout the year. The following important changes took place in the Tuitional Staff.

216. Mr. Bishamber Pershad, M. Sc., Mathematical Master, left the College in August 1909 to join a private one in Agra on better pay.

217. In September 1909, the 2nd Moulvi Sadidudin, a man of erudition and an authority in his particular department died and his place was given to the 3rd Moulvi Abid Hussain. In November 1909, another casualty took place in the College staff in the death of the Head Moulvi Tehsin Ali who had served Government faithfully and efficiently in different capacities for 41 years.

218. The most noteworthy event of the year was the raising of tuition fees in all classes, throughout the College and school, in accordance with the recommendation of the Special Education Committee which was formed in 1907-1908 to report on the improvements needed in the educational system of Ajmer-Merwara. The revised scale of fees stands thus:—

172. suggestion of the Committee has been carried out, viz., the cash balance of the High School in the College building.

173. The a in the prev. recommended by the Committee are still before the Govern- of spirits at fairer arrears of practice appeared

222. The number of students in the college classes at the end of the year was 55 and in the school classes 154 as against 70 and 243 respectively in 1908-1909. In the Lower College the number on the rolls was 352. The results of the different examinations which were held at the close of the year are given below :—

B. A. Examination . . . . .	2 out of 9.
Intermediate Examination . . . . .	8 out of 24.
Matriculation Examination . . . . .	7 out of 20.
Middle Examination . . . . .	19 out of 42.

These comparatively poor results are attributable to the severe outbreak of Plague in Ajmer last autumn when the College and School had to be closed for about 3 months as well as to the general stiffness of the University Examinations.

223. The Boarding-houses continued to be popular and fully occupied. For about one month during the plague epidemic students of the College and the principal school classes were accommodated in them. Sanitary arrangements were carefully attended to and every body in residence was inoculated with the result that not a single case of plague occurred within the premises though the disease was in close proximity and dead rats were frequently found on the premises.

224. The number of Aided Schools was 11 at the close of the year and the Aided schools: total number of pupils attending them was 1,617.

225 During the year under report one new Primary School was opened in Village schools: Merwara while the status of 8 schools was reduced from Upper Primary to Lower Primary. Thus the number of village schools on the 31st March 1910 was as shown below :—

District.	Secondary.	Upper Primary.	Lower Primary.	TOTAL.
Ajmer . . . .	6	23	6	35
Merwara . . . .	2	9	5	16
TOTAL . . . .	8	32	11	51

Plague caused much unsettling of work in the villages during the year. Twenty-two village schools in Ajmer and two in Merwara were closed for periods of two to three months at a time and the average number of pupils on the rolls fell from 2,132 in 1908-1909 to 2,086 though the average attendance was not palpably affected.

226. The Inspector of schools reports that the work done in the village schools with few exceptions shows marked improvement, 25 boys were prepared by these schools for the Vernacular Final Examination of the United Provinces out of whom 18 appeared and 6 passed.

227. The total expenditure on village schools amounted to Rs. 31,116 of which Rs. 14,487 were provided from Imperial Funds, Rs. 11,885 from Municipal and District Funds, Rs. 2,141 from fees, Rs. 2,237 from Mission Fund and Rs. 366 from other sources.

228. The annual Rajputana school sports which were to be held in December 1909 were abandoned owing to the prevalence of plague in Ajmer.

## SECTION VII.

## GENERAL MISCELLANEOUS.

- Pushkar Fair.** 208. The annual religious Fair at Pushkar took place between the 22nd and 28th November 1909. Owing however to severe outbreak of plague in the Ajmer city and District, the Horse Show and Cattle Fair usually held in connection with the Fair were abandoned, and for the same reason the gathering of pilgrims was not large.
- Urs Fair.** 231. The annual Urs Fair in connection with the Shrine of the Dargah Khawaja Sahib at Ajmer was held from the 19th to the 21st July 1909. About 60,000 people attended the Fair. The Police and other arrangements were satisfactory. The Superintendents of Police, Agra, Delhi, Khandwa and Ahmedabad and the Commissioner of Police, Bombay, were requested to send constables for duty at the Fair to watch bad characters from their respective districts. These men as usual proved most useful.
- Beawar Tejaji Fair.** 232. The Tejaji Fair at Beawar was held from the 23rd to the 25th September 1909 and was attended by about 20,000 persons. It is purely a local gathering. The attendance was considerably larger than that of last year.
- Kekri Tejaji Fair.** 233. The Tejaji Fair at Kekri commenced and ended a day earlier than at Beawar. Owing to good rains the gathering at the Fair was normal.
- Printing Presses** 234. At the beginning of 1909 there were 12 \* printing presses. Two of *vide Table No.* them *viz.*, the Ajmer Printing Press and the Tarraki Nazam Press were closed *l. Serial No. 53.* during the year. No new Press was started. Thus the number of presses at the close of the year was 10. Two Newspapers and seven Periodicals in all were issued from these Presses. No new Newspaper or Periodical was started during the year.
235. Eight books in English, two in Latin and thirty-seven in Indian languages were published during the year.
- Bhumias.** 236. The Assistant Commissioner, Ajmer, held the usual ceremony of receiving the Bhumias and their Nazrana on the 25th June 1909, the day appointed for the official observance of the Birthday of His Majesty the King Emperor. Out of the total demand on account of Nazrana amounting to Rs. 3,961, a sum of Rs. 3,924 was recovered at the Darbar, the balance being recovered in full afterwards.
- Treasure Trove.** 237. During 1909-1910, there was one case of Treasure Trove in the Ajmer District. A find of 257 coins in an earthen pot buried in the ground was discovered at Kanpura. The find was reported to the Asiatic Society of Bengal under rule VII of the Rules framed by the Hon'ble the Chief Commissioner, under the Treasure Trove Act.
238. The coins examined by the Numismatic Secretary of the Society were found to be of mixed metal (silver and copper) and belonged to the following periods:—
- |  |     |

| Allauddin Mohamed, A. H. 701-715 . . . . . | 55  |

| TOTAL . . . . .                            | 252 |
239. They are said to be fairly common and their numismatic value has been put at six annas each.
240. No case of Treasure Trove was dealt with in the Merwara District during the year 1909-1910.

Column 6.—When under section 102, C. P. C., a decree is wholly or partially made in favour of an absent plaintiff on the admission of the defendant, the case should be entered in this column. Column 8.—A case in which defendant appears, but a plaintiff does not, and defendant does not confess judgment and the case is thereupon dismissed, the case should be entered in this column. Columns 15 and 16.—As regards the average duration of suits, the date of their presentation of the plaintiff shall be considered as the date of institution, unless some defect or omission requires to be amended before the plaintiff can be admitted, in which case the date of admission after amendment shall be regarded as the date of institution. With regard to applications to execute decrees, the date of their presentation should alone be considered. In calculating average duration, the time that the suit has been actually pending in the particular Court should alone be calculated. The interval should be omitted during which an application for review which has been granted, or an appeal in which an order of remand has been passed, been pending in the superior Court. Revived suits are to be treated as if newly instituted on revival.
